

CareMeridian provides a continuum of high quality, cost-effective post-acute care and rehabilitation options to children with brain, spinal cord and other life-altering injuries and medically complex illnesses. At CareMeridian 4kids, we accept infants to young adults.

With program locations throughout the Western United States, CareMeridian offers a distinctive service delivery model, merging an experienced and skilled health care and rehabilitation team with state-of-the-art technology in community-based program settings designed to meet the unique needs of those we serve at every stage of their recovery.

CareMeridian has received accreditation by the Joint Commission on Accreditation of Healthcare Organizations (JCAHO) and has been recognized for meeting the Commission's healthcare quality and safety standards.

Our Las Vegas All-Kids Pediatric Facility

Our Funding Options

At CareMeridian, we strive to provide a higher quality and lower cost alternative, working closely with a variety of payors, including private insurance companies. We participate as an "In Network" provider for most major health plans and payors. Funding options include: Medicaid, HMOs, PPOs, Private Insurance and Private Pay.

Our Care Team

With an industry leading 1:4 staff-to-patient ratio and 24/7 care, CareMeridian offers individualized care plans and personalized attention with our Interdisciplinary Treatment Team composed of: physicians; nurses; case managers; social workers; physical, speech, occupational and respiratory therapists; neuropsychological specialists; activities directors; and dieticians.

Our Las Vegas Pediatric Facility

CareMeridian 4kids is designed to provide children with a safe, home-like environment, while receiving specialized, skilled care during their recovery period.

We've created an atmosphere favorable to our young patients' recovery, including distinctly-decorated rooms and rehabilitation equipment specifically designed for children.

Our Services

Within our CareMeridian 4kids Facility, we work one-on-one with children for their individual intense rehabilitation needs. Our therapy team uses equipment that is both familiar and fun. Wii-hab (therapy utilizing a Nintendo Wii) offers a dynamic and engaging interactive approach that focuses on improving motor and visual skills, as well as cognition.

Unlike most post-acute care alternatives, CareMeridian provides a non-institutional-like environment, creating surroundings conducive to quicker recovery. Each facility features sophisticated equipment, outdoor therapeutic areas and personalized bedrooms to make our patients feel like they are at home.

Our programs include:

- Acquired Brain and Spinal Cord Injuries
- Complex Wound Care
- Burn Care
- Pulmonary
- Congenital Disorders
- Amputee Care
- Neuromuscular Disorders
- Medically Complex Cases
- High-Intensity Rehabilitation

I struggled about having my daughter Mia in a care facility, but I'm so pleased with the outcome here. Your facility and staff have made a vast improvement in her life.

Family Approach

Through weekly interdisciplinary team meetings, parents are provided with comprehensive, up-to-date reports on their child's recovery progress. We involve parents in every level of their child's recovery. This positive family dynamic enhances and can accelerate the healing process. Additionally, we are sensitive to how difficult it is to be separated from your child. That's why we provide family members the opportunity to stay overnight with their child if they desire.

Should your child require ongoing care after discharge, our dedicated care team visits your home to identify all possible difficulties and then educates your family on any special needs your child may have to ensure the transition is both easy and comfortable.
