Our Care Team

With an industry leading 1:4 staff-to-patient ratio, 1:1 therapy and 24/7 care, CareMeridian offers individualized care plans and personalized attention with our Interdisciplinary Treatment Team composed of: physicians; nurses; case managers; social workers; physical, speech, occupational therapists; and neuropsychologists.

Our Scottsdale Program

Our community-based NeuroRehabilitation programs provide services for people who have sustained a neurological injury. Our location in Scottsdale opened in 2010 and provides daily living assistance and support to participants who have been discharged from a hospital or other more intensive rehabilitation facility, but still face physical, psychological and social challenges as they work towards increased independence and community integration.

My experience at CareMeridian was great! **I had the best care** and the staff was wonderful. I would not be here where I am now without their help. Thank you all so much!
